

**TEAM ID : NM2023TN**  
**PROJECT TITLE : CREATION OF AN APPLICATION FOR**  
**. SCHOOL MANAGEMENT**

## **Project Development Phase**

In this milestone you will start the project development and expected to perform the coding & solutioning, performance testing submit them.

### **No. Of Functional Features Included In The Solution**

In this activity you are expected to work on the functional features included in the solution.

Functional specification works like a blueprint that helps the development team to understand how an application will function. It describes the user experience step by step. Having a functional specification document supports developers in organizing and executing all stages of the product development cycle.
