Project Design Phase – Part 2

From this milestone you will be continue working on the project design phase. You are expected to cover the activities given.

Requirement Analysis (Functional, Operational, Technical) / Flow Charts

In this activity you are expected to prepare the functional requirement analysis document by referring from the template.

As a Business Analyst, requirement analysis is the most important part of your Job. It will help you determining the actual needs of stakeholders. At the same time, enable you to communicate with the stakeholders in a language they understand (like charts, models, flow-charts,) instead of complex text.

A requirement analysis has a

- Specific Goal
- Specific Input
- Specific Output
- Uses resources
- Has a number of activities to be performed in some order
- May affect more than one organization unit
- Creates value of some kind for the customer
