TEAM ID   :   NM2023TN

PROJECT TITLE   : CREATION OF AN APPLICATION FOR

.   SCHOOL   MANAGEMENT

Project Design Phase – Part 2

From this milestone you will be continue working on the project design phase. You are expected to cover the activities given.

Cloud Deployment

- In this activity, you are expected to deploy project on Cloud
- Cloud deployment is the process of deploying an application through one or more hosting models—software as a service (SaaS), platform as a service (PaaS) and/or infrastructure as a service (IaaS)—that leverage the cloud. This includes architecting, planning, implementing and operating workloads on cloud.
- Streamlined Administrative Processes. Cloud-based school management systems automate various administrative tasks, making processes more efficient and less time-consuming. Tasks such as student enrollment, attendance tracking, grading, and generating reports can be easily managed within the system.
